CABLE NEWS.

The Cotton Spinners' Inaugurate an Immense Industrial War—Fifty Thousand Already Out.

The British Attorney-General and Solicitor-General to Forego Private Practice.

French Successes in Dahomey—The Pope and the Triple Alliance.

The French Elections.
ROME, Nov. 7.—The returns of yesterday's elections for members of the Chamber of Deputies, show that 184 Government supporters and 71 members of the Opposition were elected. Re-balls will be necessary in 17 districts, in which the Government candidates stand the best chance of being elected.

Ministerial Resignation in Hungary.
BUDAPEST, Nov. 7.—In the lower house of the Hungarian Diet to-day, the Minister of War was questioned with regard to the report that the Ministry had resigned. He replied that Count Zupari, the prime minister, was the only member of the Government who could give the House any information.

A Nobleman Attempts Suicide.
VIENNA, Nov. 7.—Senator Count Johanna Tarasicki, member of an old Polish family, attempted to kill himself, to-day, in the Parliamentary buildings. He shot himself in the head; but the bullet glanced, and he will probably recover. He was deeply in debt, and is said to have bet heavily on the turf. He was removed from the building to his apartments, where he now lies.

Will Have No Private Practice.
LONDON, Nov. 7.—It has been decided that in future neither the Attorney-General nor the Solicitor-General will accept private law practice, except in appeals before the Privy Council or House of Lords.

Punished for Homicide.
GENOA, Nov. 7.—The trial of the waiter Baravalle, for killing, on September 2, Frank Reilly, stoker on the U.S. cruiser Newark, took place here on Saturday. Baravalle stabbed Reilly twice while the latter was hargling about the price of lodgings with the landlord of the Hotel Universe. He was found guilty of the crime without premeditation, and was sentenced to serve twelve and a half years' imprisonment, to be perpetually debarr'd from employment by the city or state, and pay the costs of the trial.

The Pope and the Triple Alliance.
MUNICH, Nov. 7.—It is stated that when the Bavarian premier was in Rome, the Pope remarked to him that Bavaria was the only part of Germany where the church enjoyed the fullest freedom. Cardinal Rampolla, the Papal Secretary of State, is declared, on the same authority, to have informed the Bavarian statesman that he was no friend of the Triple Alliance.

The Cotton Strike.
LONDON, Nov. 7.—Saturday saw the beginning of what seems likely to prove the greatest industrial war between capital and labor the country has ever known. Cotton mills, employing about 14,000,000 spindles, have shut down, about 24,000 spinners, men, getting out of employment. The card and blowing room operatives, who were formerly idle when the spindles stopped, number about 25,000. The men of both associations paid special levies lately into the treasury, which will be increased by members staying at work, giving the strikers an income of over \$150,000 per week. The operatives appear to hold the strongest position, as the improving prospect in the cotton trade has induced a number of mill owners to keep on at work at the old scale of wages. Should improvement prove temporary, however, the mills will shut down again, and the struggle with the men will grow more bitter. At a meeting of spinners' delegates to-night, telegrams were read showing that it is expected that 53,000 workmen will be idle by Monday. Great enthusiasm was shown at the meeting.

Italian Ministerial Successes.
ROME, Nov. 7.—Latest returns show that the Ministerialists will probably have three hundred seats to one hundred seats held by the Opposition.

Dahomeyan Defeat.
PARIS, Nov. 7.—A despatch from Porto Novo says that Col. Dods, commander of the French expedition in Dahomey, had captured Muako, near Cana, on Nov. 2, and had completely routed the Dahomeyan army on the field, Nov. 3. The French loss in the latter engagement was seven killed and sixty wounded.

Samuel Brandram Dead.
LONDON, Nov. 7.—Samuel Brandram, the Shakespearean scholar, is dead.

Stricken With Paralysis.
VIENNA, Nov. 7.—A despatch from Linz states that Baroness Hirsch was stricken with partial paralysis on Sunday.

Increasing Russian Forces.
BERLIN, Nov. 7.—In an officially inspired article on the Army Bill, the Post states that, since 1888, the Russian force on the Russian frontier has been increased by 62 battalions of infantry and 48 squadrons of cavalry.

THE SITUATION.
An Outlook of the Election Prospect as It Was at Midnight.
NEW YORK, Nov. 7.—Late to-night, the Republicans made a grand raid upon the betting centre at the Hoffman House, in accordance with a preconcerted policy. A great deal of money was bet on Indiana at the odds of 10 to 7 in favor of Cleveland carrying the state. There were several bets on local politics at enormously Democratic odds. There was considerable betting on the Presidential result at even money, and at 10 to 9 in favor of Cleveland. James Mahoney bet in various sums to 10 o'clock, an aggregate amount of \$100,000 on the election of Cleveland, the majority of which was placed at the odds of ten to nine. There were numerous bets made during the evening and up to a late hour at the odds of \$1,000 to \$450 in favor of Cleveland carrying the State of New York. The different leaders of both parties advance the usual anti-election claims to New York, Indiana and Connecticut. That Cleveland will carry the former State is now conceded. Pennsylvania is still in doubt. O'Donnell's letter was quite a bombshell, but seems to have lost its force early. It created considerable excitement, however, as also did a report from Oregon that Chairman Harrity had ordered the Oregon Democrats to vote for Weaver, as every vote for Weaver meant a vote for Cleveland. Two special trains with Democratic workers have been started for Portland, loaded with circulars and instructions to secure Weaver votes.

ANARCHY'S ANNIVERSARY.
Big Turn Out in Memory of the Haymarket Bomb-Throwers.
CHICAGO, Nov. 7.—Yesterday was the anniversary of anarchy in Chicago. Thirty-five hundred people stood in a cold, drizzling rain at Waltheim cemetery, and paid tribute with speech and song to the memory of "the martyrs," strewn with wreaths and flowers the graves of the five men who were condemned by law for their participation in the Haymarket riots, August Spies, George Engel, Albert Parsons, Adolph Fischer and Louis Lingg. Earnestness, enthusiasm and general good order characterized the celebration of the men and women who dedicated to the world a monument that is to mark the graves of those who, five years ago, paid the penalty of their crime with their lives. There were two features of the day's exercises, the parade in the city and the ceremonies at the cemetery. The labor organizations that were to participate gathered at the Haymarket square at 11:30 o'clock in the morning, but it was noon before the procession moved.

Fifteen hundred men were in line, and as they marched to the Grand Central depot, accompanied by bands playing the "Marseillaise" and the "Dead March in Saul," they were watched with interest by many who stationed themselves on the sidewalks. At the station two special trains awaited to convey the crowd to the cemetery, where the graves were lavishly decorated. On the top of the monument which marks the burial place of the five men was placed a floral garland, from the arm of which was suspended by ropes of similar five crimson roses. "Murdered but not dead" was the inscription, set in carnations. On the pedestal were Spies' dying words as the noose was about his neck: "Our silence will be more powerful than words could be." Red flags were not displayed in the demonstration, but all the floral emblems bore red streamers, and that color prevailed everywhere in badges and bouquets.

Memorial meetings were also held in London, Paris and different parts of Germany.

ABOUT THE VATICAN.
What is Being Done in the Holy City—Colombus to Be Beatified.
ROME, Nov. 7.—The Pope has promised the apostolic delegate to Patagonia, Mgr. Cagliero, a special fund to develop and spread Roman Catholicism among the natives. The Pope is preparing a letter to the American Episcopal congress. In it he renews his promise to beatify Columbus. More than a thousand Mexican pilgrims have arrived here for the celebration of the Papal jubilee. The Pope has been requested by the Argentine Republic to elevate to the cardinalate the Archbishop of Buenos Ayres.

CAPITAL NOTES.

To Encourage Tree Planting in the Northwest Territories—Michigan Farmers Settling.

Great Activity in the Lumbering Camps—Manitoba's Light Infantry Wiped Out.

The Fishery Laws Generally Respected by the Americans—Exhibits for the World's Fair.

(From our own Correspondent.)
OTTAWA, Nov. 7.—Three tons of tree seeds were gathered in the Northwest Territories this fall. They will be distributed among the settlers to give a local impetus to forestry in that section.
More Michigan farmers have been located in the Territories.
The latest militia order wipes the Manitoba Light Infantry out of existence. Seven thousand men are lumbering in the woods on the Upper Ottawa, this winter. The fishery cruisers will shortly be laid up.
From reports received by the Fisheries department, it appears that, with one or two exceptions, the American fishermen have respected the law. The Canadian catch was about an average one.
The Ontario and Nova Scotia collections of green fruit for the World's Fair are going forward to-day in refrigerator cars. On their arrival at Chicago, they will be placed in cold storage until the opening of the exposition.

Can Harrison Be Elected?
NEW YORK, Nov. 7.—Hugh C. Wallace received at Democratic headquarters to-day reports from all the far Western States, and says that they all point to the success of the Weaver ticket in Kansas, Nebraska, Nevada, Idaho, Wyoming, Colorado, North and South Dakota, and four votes from Minnesota. This makes a total of 42 electoral votes, which Mr. Harrison will probably lose in the states not taken into account by either our competitors. It looks as if Mr. Harrison cannot be elected, even if he should carry the states claimed by the Republican committee.

Betting on the Result.
NEW YORK, Nov. 7.—Betting continued to be brisk in Wall Street, and in the Exchange to-day. The odds were even on the general result, and on Connecticut a good many bets were received. The bulk of the betting was on the State in which the Democrats offered two to one. A good many bets were taken at these odds; but there was plenty of money around which was not covered. At the Hoffman House to-night, the odds remained as they had been 10 to 9 that Cleveland would win, and 2 to 1 that he would carry New York State. A good many large bets were made. It was found that Republican money was more plentiful than Democratic on the general result, but odds of 2 to 1 on the State went begging.

Comedian Kernell a Lunatic.
NEW YORK, Nov. 7.—Harry Kernell, the comedian, was adjudged a lunatic to-day.

Cleveland's Success Predicted.
WASHINGTON, Nov. 7.—Senator Gorman, who returned to-day from New York, said that Cleveland would certainly win. For two weeks past there had been no doubt in his mind of Cleveland's success.

Seattle Health Board.
SEATTLE, Nov. 7.—The Board of health met Saturday, for the purpose of discussing precautionary measures to be taken in regard to smallpox. It was decided to appoint officers, whose duty it shall be to inspect every train which comes in from the north. This measure refers especially to trains carrying men who come from the mining districts and places along the Great Northern. A report was received stating that the proposed pest and suspect houses would be built at once. One new case was discovered yesterday. A laborer who lived in a hut on the Great street bridge was examined, and sent to the pest house. On account of the presence of smallpox, Lieut. W. P. Goodwin, the recruiting officer, has been ordered to suspend recruiting for the present.

Excitement in Oil.
PORTLAND, Ind., Nov. 7.—The greatest excitement ever known in the Indiana oil field exists here. A well near Camden on the Grissell farm was torpedoed, and a solid stream of oil shot up into the air 100 feet above the derrick. The well is flowing at the rate of 2,000 barrels a day. It belongs to Gibson & Giles, of Pittsburg. Oil men from all over the territory are flocking to see the latest big strike.

Lynched for His Sons' Sake.
MERIDIAN, Miss., Nov. 7.—James Tolbert, father of the Tolbert boys, who have long been a terror and disgrace to this section, was last night taken from the guards, near Fort Stephens, and lynched by a mob. Charlie Tolbert, the eldest son, is in custody, and may escape mob violence. Tom Tolbert and his youngest brother Walter escaped after shooting Tom Cole. Bloodhounds are now scouring the country, and their capture is only a matter of time.

Jerome Park Must Go.
NEW YORK, Nov. 7.—In all probability Jerome Park, for a generation far-famed as one of the great racing tracks of the state, will soon cease to exist as a distinct tract of land, and will be broken up into building sites. A syndicate of wealthy men have closed an option on the land at the price of \$500,000, and announced their intention of taking the title to the property.

Summarily Shot.
SMITHSONIA, Ga., Nov. 7.—G. H. Herring, a slightly respected farmer living near here, came to town this evening, sought out Sidney J. Atkins and shot him, killing him on the spot. Herring says Atkins had wronged his daughter.

A Presidential Bet.
MERIDEN, Conn., Nov. 7.—Two young women of this city, employed in Bradley & Hubbard's shop, have made a novel bet on the presidential election. The loser is to wheel the winner in a baby carriage from the Meriden House to the Winthrop and back, between eight and nine o'clock on the first Saturday after election. A forfeit of \$5 has been posted.

Hops at Payallup.
PUPALUP, Nov. 6.—The hop market is very quiet, as all persons are much interested in politics just at present. Probably there will be very few transfers until after election. E. Meeker & Co. bought on the 2nd inst. 115 bales of hops in Oregon, at 21 cents per pound. Henry Becket, of Orling, had somewhere near 14 tons, which he sold the first of the week to Louis Lachmund for 20 cents. Stevenson, of the same place, who had about six tons, sold for the same price. E. C. Merrill went to Oregon this week to oversee the planting of 40 acres of hop land belonging to himself and George H. Rose. C. W. Stewart looked up accurate measurement that his yard comprised nine and one-half acres exactly, and from this yard in 1890 16 tons were harvested and baled and sold for 30 cents. This year there were 1,000 hills missing, so only eight and one-half acres would be counted, and from this he harvested seven tons, which he considered a very good return, all things considered.

Snow Storms in the Western States.
ST. PAUL, Nov. 7.—It has been snowing and blowing throughout Minnesota and the Dakotas for twelve hours. Six inches of snow have fallen, which in places has drifted badly. It will interfere with the farmers getting to the polls to-morrow.

AMERICAN NEWS.
Correspondent Childs Not Dead.
NEW YORK, Nov. 7.—Harper Bros. doubt the authenticity of the report of the death of their correspondent, Mr. Childs, which was cabled from London. In a letter recently received from Tabriz, Persia, written on September 8, Mr. Childs said that he had just recovered from Asiatic cholera.

Homestead's Strike Still On.
HOMESTEAD, Pa., Nov. 7.—The promised break in the ranks of the strikers failed to materialize this morning; but four men returned to work, and possibly three others will comprise the extent of the defection. The meeting of Saturday last had a stimulating effect upon the men and the waning courage had been brought to the sticking point. From present indication the strike will be prolonged indefinitely, as there is less appearance of weakening to-day than at any time during the present struggle that now enters upon its fifth month.

CHIHUAHUA, Mexico, Nov. 7.—The people of this State and the country in general are much alarmed over the Indian troubles in the western part of Chihuahua in the Sierra Madre. According to the report which has reached here during the last few days the Yaqui Indians have been greatly aroused by the wholesale massacre of their neighboring and friendly tribe at Lomachie by Government troops. The peaceable Yaquis in the valley of Chihuahua are leaving their farms and ranches, and with their wives and children are gathering at an appointed rendezvous in the mountains north of Trinidad, where they have discovered another patron saint in the person of a beautiful Mexican girl named Anita Roza, whose father is a shepherd. Saint Anita charges the Indian worshippers to make war upon the Mexicans, and to reclaim the rich lands in Yaqui valley, which the Government has taken from them. There are several hundred Indian braves and about two hundred ignorant Mexicans now preparing to begin their depredations. They are nearly all well armed, and expect to begin their campaign as soon as winter sets in. The Government is active in its preparations to quell the outbreak, as soon as the rebels have drawn out of their stronghold. General Manuel Rance with 800 troops will leave for the scene of the trouble as soon as the Mexican roads are passable.

O'DONNELL INSANE.
The Iron Workers Declare that His Delusions are Those of a Lunatic.
PITTSBURG, Pa., Nov. 7.—Being barred from communicating with Hugh O'Donnell in jail through a guard or by personal note, the United Press sent to the prisoner a special letter, this afternoon, asking if the letter to Burke was genuine. The following reply was received:—
"ALLEGHENY COUNTY JAIL, 'Pittsburg, Pa., Nov. 7.
"I wrote the letter to Mr. J. B. Burke in answer to one sent me asking me if I had the same views of the tariff as formerly. All the enemies of the locked-out men at Homestead are Democrats from Governor Patterson down. Gen. Snowden, Chief Justice Paxton, the New York Sun and other Democratic papers are against us. If the workmen of this country do not defeat the national Democratic ticket, they will be untrue to themselves."
"(Signed) HUGH O'DONNELL."
Some iron workers happened to be in the United Press office just as the letter came in, and exhibited surprise at the contents. Said one: "It only lends me to believe more than ever, as we have already said, that he is not altogether sound in his mind. You see he even puts down Chief Justice Paxton as a Democrat. Everyone in Pennsylvania knows that Paxton is a life-long Republican and has never changed his politics. I think that enough in itself to prove that O'Donnell is out of his head."

Much the Same.
SITUATED much the same as Liverpool on the west coast of England, possessing superior shipping facilities and like natural advantages, Albern will, one day, become the Liverpool and Manchester of Vancouver Island. History repeats itself.

NEWS OF THE PROVINCE.

Exciting Recapture of the Noted Desperado Houston, at Alder Grove.

A Boom in the Cannery Business—Desertions at Nanaimo—Iron Mining Development.

(Special to the Colonist.)

VANCOUVER, Nov. 7.—The first selection of jurors for the new Vancouver judicial district commenced at 3:30 o'clock this afternoon. The court of selection is composed of County Court Registrar Beck, acting Sheriff Armstrong, Thomas Dunn and J. A. Jordan, J. P.

The removal of the C. P. R. freight sheds to the foot of Abbott street has been completed, and commencing with to-day all local freight will be delivered from the new premises.

A large number of creditors, Canadian and foreign, have, by cable and otherwise, filed claims against the estate of McKinnell & Co., (successors to G. A. Fraser & Co.), who recently assigned to W. E. Green, and an injunction is to be sought to restrain a sale of the stock unless it be for the benefit of all the claim holders.

Some anxiety is felt at the Japanese Consulate regarding the Japanese warship *Kanpo*, which is now considerably overdue. It is thought she would naturally follow the route taken by the *Empress*, but the *Empress* of Japan did not see her. If nothing is heard of her, Mr. Kito will cable his Government for instructions, so that, if deemed advisable, a search may be sent out.

A man was robbed of \$130, on Dupont street, on Saturday night. He did not prosecute.

The Atlantic express which left here on Friday ran over a tree at Sissano, derailling several cars. No one was hurt.

WESTMINSTER.

NEW WESTMINSTER, Nov. 7.—Kearney Jim, charged with the murder of Whon-neck Harry, was brought before the police magistrate this morning at the Provincial gaol, and remanded for eight days.

A gentleman from Seattle, this morning, says there are twenty-two cases of smallpox in that city at present. It is thought the Health authorities might do well to ascertain if such is the case in view of the possible necessity of precautions being taken to prevent its spreading into this province. There promises to be a regular boom in cannery building during the next six months, and it is possible that half a dozen more canneries will pack salmon next year than in the past season.

The latest enterprise in this line is that of Hunt & Castello, who are about to commence the erection of an establishment at Stevenson, which will have a capacity of 15,000 cases. Their wharf has already been built. The main cannery building will be 80 by 150 feet. The machinery has been ordered, and the cannery will be ready for operation by May 1.

The Canadian Pacific Canning Co., on Lulu Island, has built the largest wharf on the river, 180 by 300 feet.

Alexander Houston, the noted criminal and desperado who escaped from the penitentiary last March, where he was serving a 14 months' term for the murder and rape of an old Indian woman, aged 80, two years ago, was captured yesterday at Alder Grove. Houston has been spending the time since his escape in the mountains in Washington State, near Sumas City, and rode across the line on Saturday, proceeding to his father's house at Luncy. Here he spent the night, and, after forcing his sister to give him money, cantered up to the village of Alder Grove. In the street of the village he met R. Shortreed and A. Murchison, and, drawing a six-shooter, fired at the former, who retreated to the house, got guns and returned. Meantime Houston galloped to Shortreed's store and tried to break in. Failing in this he mounted again and rode down the street flourishing a revolver and offering to kill anyone for \$25. Shortreed overtook the desperado and called on him to surrender. Houston refused and raised his revolver, but Shortreed had him covered and fired a load of buckshot, killing the horse. Quick as a flash the outlaw was up, and Shortreed gave him the other barrel, severely wounding him. Houston then threw up his hands and surrendered. The officials here were notified and brought Houston back to the penitentiary. He will be tried on new charges at the coming assizes.

NANAIMO.

NANAIMO, Nov. 7.—A man at Northfield was, yesterday, slightly burned by an explosion of gunpowder while attempting to blow out a stump.

Six of the crew of the bark *Malrose* deserted last night. Capt. Kall heard some unusual noise while in the cabin, and went on deck just in time to see a boat alongside, in which his crew were embarking. He tried to stop them, but it was too late. He secured a revolver, but it did not have time to use for some time, he could not fire it to advantage. The men have not been seen or heard from since. It is generally supposed the union men are at work again, as the boat was towed yesterday at the cabin of one of the leaders of the union.

Two men, Dick and Jack Treveler, arrived to-day from Canoe Pass. They had an extremely stormy passage. They left the Fraser river on Friday, but were caught in a gale on Friday night, being on Saturday at the mercy of the winds and waves. Their oars were washed overboard, also many other articles which they had in the boat. Finally they brought up at Cowichan gap, where they found shelter and came on here.

Insurance business is on the boom, one underwriter claiming to have written \$75,000 life papers within the last two weeks.

Henry Hewett, Jr., of the Everett Land Co. and Puget Sound Steel Works, who have bonded the Texada Iron Mines, says there are 11,000,000 tons of iron ore in sight, and they require to have ore to supply their contemplated rolling mills, to make steel plates for the new whalebacks and to provide wire for their nail mills.

DUNCAN'S.

DUNCAN'S, Nov. 5.—The annual general meeting of the Cowichan and Salt Springs Island Agricultural Society was held at the society's hall, Duncan's, to-day—Mr. W. P. Jaynes in the chair—when the following officers were elected: President, W. H. Elkington; vice-president, W. Bazett; secretary, Alexander Blyth; treasurer, G. T. Corfield; committee, J. Musgrave, G. Hadwen, W. Ford, Jas. Evans, Angus Bell, R. Barkley, W. R. Robertson, W. C. Duncan, W. L. Brown and John Fleet.

Douglas Dick and W. Ward went down yesterday after a day's outing in the neighborhood.

E. M. Skinner, H. Fry, Jr., W. E.

Blythe and J. W. Edgson, who have been out on the survey parties, returned home to-day.

J. C. Prevost and J. C. Dwyer came up from Victoria.

Dr. Lindsay Dickson proposes to leave in the course of a few days on a visit to the old country.

Tuesday next is to be another, and probably the last, public vaccination day at Duncan's.

The settlers in the vicinity of Shawnigan Lake are pressing their claim to have a public school established.

Three parties of hunters are camped along the Silver Mine road, near Cobble Hill, and another party has its headquarters near the Half Way House, Quamichan Lake road. Many deer are said to be falling to their rifles, and the ventures are probably profitable if not sportsmanlike.

Thieving at Plumber's Pass.

The community about Plumber's Pass are somewhat worked up over a number of depredations which have been committed in that section recently. Both sheep and cattle have been missed from time to time, and, so far, all attempts to bring the thieves to justice have proved fruitless. Yesterday, one of the farmers arrived on the beach just in time to find the head of one of his cows in the sand, and on looking around he saw a boat in the offing rapidly widening the distance between it and the shore. It was so fast that the features of the boatman could not be recognized, but the farmer is positive that it was a white man.

Thus far it seems that whoever is doing the stealing lands from a boat, selects an animal, drives it down to the beach, and then killing and dressing it, loads the carcass in his boat and leaves only a water trail to follow. But little attention was paid to the matter at first, but now the cattle are growing too numerous and a determined effort will be made to put a summary stop to the proceedings. If other methods fail, there is talk of instituting a coast patrol, which will make a business of laying for the man or men in the boat. If found, it is probable that rather harsh measures would be taken, as the farmers are very angry.

Increased Banking Facilities in the Northwest—C. P. R. Immigration Work—Railway Collision.

WINNIPEG, Nov. 7.—(Special)—The police made a big haul on Saturday night in the shanty of Charles and Thomas Powell, where a large quantity of goods captured in the recent robberies was found.

A C.P.R. freight train came into collision during the storm yesterday with another train at Bird's Hill. The rolling stock was badly damaged, but no lives were lost.

A. Gaboury, President of the B. Banque National, is here to open branches at Calgary, Winnipeg, Regina and Brandon.

The open season for pike and pickerel fishing has been extended to December 31. The Bank of Commerce is expected to open a branch here next year.

Land Commissioner Hamilton of the C. P. R. left for England to-night on immigration business.

A GERMAN OPINION.

Baron Bleichroder on the U. S. Fiscal Policy—The McKinley Tariff Injurious to American Interests.

BERLIN, Nov. 7.—A representative of the International Telegram Co. had a special interview with Baron Bleichroder, who is considered to be the first financial authority in Germany, to ascertain his views on the coming election. The Baron said: "It is foolish of you Americans to isolate yourselves from the world; it is always an unwise policy to antagonize another nation, and I prophesy that you will find it impracticable, although you are a purely commercial nation, to escape the influence of the McKinley bill on your foreign relations. You cannot even secure friendly courtesies in Europe. The McKinley bill has caused the whole of Europe to hope for Cleveland's success in the elections. Mr. Cleveland was undoubtedly right in his course during the silver agitation. When I was visiting the Rothschilds in Paris, they both denounced the McKinley bill. But little was gained when the tax on the raw material was imposed, for America was compelled to produce certain specialties, which it is now impossible to produce. The tariff was of doubtful benefit even before the McKinley law, and I consider the present supporters of the McKinley law to be standing in their own light."

FOR CLEVELAND.

Mrs. Della Stewart Parnell Comes Out as a Strong Democrat.

TRENTON, N. J., Nov. 6.—Mrs. Della Stewart Parnell, mother of the late Irish leader and daughter of the famous Admiral Stewart, of the American navy, being confined to her house by illness and unable to speak in public on the election, has written a strong letter counselling all Irish-Americans not to be led by Patrick Egan and his friends in voting for Harrison, and urges them to vote for Cleveland. She says the last minute is the turning point for many, and that a woman being apt to get the last word, she speaks now. She says the Democrats in America have done great service for the Home Rule cause and Irishmen should reciprocate it. She says there is no real danger of injury to the business interests of the country from Cleveland's election, and that the cry of keeping out British goods in order to injure England is absurd, as we cannot injure other countries without injuring ourselves, and that the British manufacturers are generally Liberals and friends of justice to Ireland, while the Tories, Ireland's bitterest enemies, are strong protectionists and bitterly opposed to free trade. She says American industries, backed by American brains, having nothing to fear from the widest and freest competition; that the enormous growth of our business interests is not due to protection, but to American liberty, manhood, suffrage and peace with all the world, and predicts that these things will cause wonderful progress hereafter.

NEW GOVERNMENT BUILDINGS.

Five Sets of Plans Chosen as Being Most Meritorious and Within the Limit.

Three are by Canadian Architects, Two of Whom are Residents of British Columbia.

Those who have been looking forward to the outcome of the work of the Board of Experts appointed by the Government to examine and report upon the plans submitted for the new buildings to be erected on the grounds across James Bay will be pleased to know that the necessarily arduous labor has been completed, and the list of the five most suitable ones has been forwarded to Hon. Forbes G. Vernon, Chief Commissioner of Lands and Works.

The fortunate competitors are as follows, the names having been placed in alphabetical order, not in order of merit:

No. 19—"Britannicus," F. M. Garden, Chicago, Ill.
No. 56—"B. C. Architect," F. M. Rattenbury, Vancouver, B. C.
No. 43—"St. George in Shield," J. Francis Brown, Toronto, Ont.
No. 25—"Utility and Dignity," James M. Corner, Boston, Mass.; W. P. Skillings, Seattle, Wash.
No. 17—"Utile Dulce," Thos. C. Sorby, Victoria, B. C.

The method adopted in order to get these plans sent in by placing an advertisement in the newspapers calling for competitive designs. In response there were 65 sets of drawings forwarded by 62 competitors, under the following names de plume or symbols:

Patience.

The plans were arranged and examined by Mr. S. G. Curry, of the firm of Darling & Curry, of Toronto, President of the Ontario Society of Architects, and Mr. A. T. Taylor, F. R. I. B. A., R. C. A., member of the Council of the Quebec Association of Architects. These two gentlemen are leading men in the profession in Canada, and their choice as experts was considered by local architects as eminently satisfactory.

It is to be regretted that several designs of great merit had to be rejected on the ground that the expense of carrying them out would grossly exceed the limit of cost stated in the conditions of competition.

It will be seen that Canadian architects have secured three out of the five prizes offered, and British Columbia architects have to be especially congratulated in having taken two out of the five prizes in the 65 sets submitted from all parts of North America. This speaks well indeed for the skill of the profession in the Province.

The five sets of plans will now be elaborated and finished by the competitors, when another and final competition will take place in some three months time, and the most suitable design will then be adopted.

A COMPLAINT.

TO THE EDITOR:—A friend of mine who has a ranch in this neighborhood has lately imported from England some hop plants, and to my surprise, I find that he has paid a Customs duty on them. Now, I have lived for some years in New Zealand, which is a kindred colony to British Columbia, that is to say, they are both about the same age and of somewhat similar climate and topography, and it is extremely interesting to note the points of similarity and dissimilarity between the two. New Zealand unfortunately is saddled with an extremely heavy debt, and to pay the interest thereon an all-round *ad valorem* duty of 25 per cent. is charged upon imports, but the Government in all cases remits the duty not only upon machinery and plants which are imported for industrial or agricultural purposes, but in all endeavors to introduce or establish new industries makes every effort possible to aid their establishment. In the attempt to establish the growing of tobacco and the white mulberry for silkworms, the Government very materially aided the enterprising individuals who started these industries. It is, therefore, a little surprising to find that farmers here have to pay a duty on hop plants, for should hop-growing ever become firmly established, it will give employment to numbers of

hands, increase the value of colonial lands and aid in the growth of that era of prosperity which must be the aim of every true colonist. I am, etc.

CALVARY BAPTIST CHURCH.

The New Pastor Preaches His First Sermon to a Large Congregation.

Rev. J. E. Coombes, the new pastor of Calvary Baptist Church, met his congregation as a whole for the first time on Sunday, and by his earnestness and eloquence made a most favorable impression. His morning sermon, or address, was based on Samuel, xl., 26, 27.

He alluded to the heartiness of the reception accorded him since his arrival in Victoria, and said that these kindly expressions of feeling were not confined to the members of his congregation, but came from other churches of the denomination throughout the province. There was a great work before the church in this city, and that it may be accomplished, men whose hearts God had touched should engage in it. It would not do simply to labor as Sunday-school teachers, preachers or officers of the church unless the Holy Ghost had influenced them, and their works were undertaken and pursued in the love of God and in the interests of His church. The surging waves of sin, the mire of shame, the dens of infamy and the wails of sorrow must be borne on the hearts of Christian men and women if they would awake to the realization of Christ's great work among men. Holy zeal and fervor were essential to success.

He exhorted his hearers, not to "hold" the fort, but to "take" it, and not to cease battling against Satan until the citadels of the foe should have the flag of King Emmanuel floating over them in triumph. Touching on finances, the rev. gentleman pointed out that it was the duty and privilege of every member of the church to bear his full share of the church's burdens.

The rev. gentleman took for his evening text I Corinthians, ii., 2: "For I determined not to know anything among you, save Jesus Christ, and Him crucified." In his morning service, he said, he had laid down a platform for the congregation, he would now lay down one for himself. While he courted honest and loving criticism, he would brook no dictation in the manner or method of his work. He would interest himself in the politics of the province, as soon as he learned to understand them, and in social and moral questions he would be heard on the side of Christianity. Men in the guise of Christian ministers were preaching clap-net, but he would preach Christ crucified.

A "welcome service" will be held in the church this evening, when the new pastor will have the pleasure of a personal introduction to his people.

THE FALL ASSIZES.

Heavy Docket at New Westminster and Lists of Cases to be Tried at Nanaimo and Victoria.

Aggravated Assault, Attempted Murder and Murder, the Leading Offences Charged.

Assize Court work is now beginning in the provinces, the fall circuit commencing on Wednesday at New Westminster. Mr. A. G. Smith, deputy attorney general, leaves to-night for the Mainland to conduct the cases for the Crown, and several members of the legal profession will also be passengers for the Royal City, where they are engaged on cases to be tried. Mr. Justice McCreight will occupy the bench, the following being the list of criminal cases:

Reg. v. Tupper Thompson, seduction.
Reg. v. Bryson, stealing timber.
Reg. v. Lyford, stealing timber.
Reg. v. Wilson, stealing timber.
Reg. v. Smith, stealing timber.
Reg. v. Webster, perjury.
Reg. v. Ah Foe, conspiracy.
Reg. v. Ah Hoi, conspiracy.
Reg. v. Hunter, attempt to defraud by altering due bill.
Reg. v. Ling Kee, murder.
Reg. v. Che Kow, burglary.
Reg. v. Wai Ping, burglary.
Reg. v. Lee Quong, burglary.
Reg. v. Cope, attempt to commit murder.
The Victoria assizes will open in this city on the 25th of this month, following being the cases now on the docket:

Regina vs. Tupper Thompson, seduction.
Regina vs. Bryson, stealing timber.
Regina vs. Lyford, stealing timber.
Regina vs. Ah Foe, conspiracy.
Regina vs. Ah Hoi, conspiracy.
Regina vs. Hunter, attempt to defraud by altering due bill.
Regina vs. Ling Kee, murder.
Regina vs. Che Kow, burglary.
Regina vs. Wai Ping, burglary.
Regina vs. Lee Quong, burglary.
Regina vs. Cope, attempt to commit murder.
The case of Regina vs. Sing Kee, murder, will revive the interest taken during the summer in the Rivers Inlet tragedy when the prisoner created a furore by firing several shots among his companions, and afterwards taking to the woods, where he was arrested. The prisoner is an old timer in this country, and has a bad record.

The case of Regina vs. Teragolo, which will be tried at Nanaimo, is the fatal stabbing affray, of which particulars were given only a few weeks ago. It will also be watched with interest.

STOP IT AT ONCE!

THAT COUGH IS DANGEROUS!

On every hand we meet with old and young who are troubled with hacking cough. A serious cold is firmly seated on the chest, which bids fair to promote terrible and fatal results.

Thousands every year are laid away in the silent grave, having died from pulmonary troubles and consumption. These diseases commenced with the ordinary and neglected cough, sore throat and bronchial affections.

Had the proper means been used when the simple cough appeared, all trouble could have been easily and quickly banished.

A few doses of the celebrated and world-renowned Harvard Bronchial Syrup would have been sufficient to eradicate every symptom of danger. The curative properties of this wonderful cough remedy are really beyond calculation; and the great cures it has wrought are acknowledged by hundreds in our midst.

This is the season when Harvard Bronchial Syrup should be used. Thousands are suffering from coughs, colds, sore throat and lung troubles, and should not lose a moment in making efforts to get rid of all danger.

Harvard Bronchial Syrup, when used for a short time, will drive off every danger, and will strengthen throat, chest and voice.

MUNICIPAL GOVERNMENT.
It is the fashion on this side of the Atlantic, both in Canada and the United States, to speak and to think of municipal politics (if it is right to speak of politics in connection with municipalities) as something beneath the notice of a man of ability or social standing. Municipal matters are said to be "very small potatoes," and it is believed that neither profit nor honor is to be gained by taking an active interest in their management. It seems to be taken for granted in nearly all parts of this continent that almost any one will do for a city councillor. The consequence of this is that good men are not anxious to take part in the government of the cities, and a further consequence is, that very few of the cities of America are well governed. City government, it is true, on this side of the Atlantic costs a great deal of money, but the article which the people receive for the high price, is by no means first-class.

Almost every one speaks of mayors, aldermen and common councillors with a sneer, but there are very few who have determined to exert themselves to obtain the civic reform which is so urgently required. Most men grumble and growl and swear at the way in which civic affairs are managed, but precious few see it to be their duty to set about effecting the needed reform themselves. Yet it is evident that until the best men address themselves to the work of civic government, the affairs of cities will be badly managed.

The reluctance of city business men to take a hand in the management of city affairs is something surprising. The importance of good city government cannot be overrated. This is what the Right Hon. Joseph Chamberlain says on that interesting subject:

And besides offering a chance of moderate personal distinction, the performance of these (civic) duties provides opportunities of philanthropic activity which cannot be found in private benevolence or in any other description of public work. Local institutions minister more directly to the happiness and well-being of the whole people than even the National Government itself. They are of necessity in closer and more intimate connection with the population; they have to do with their every day existence, with their family life, with their health and personal security, and with all the thousand details that determine whether existence shall be delightful or intolerable. No doubt the rulers of the nation fill a greater part in the public imagination than the leaders of a parish. They cover a larger space, they make more noise, and they excite more interest; but, after all, the things that men care for most—their comfort, their health, their lives—depend much more upon the action of the despised vestrymen and councillors than on anything that is said or done by the great potentates of the earth.

This is really the right way to look at city governments; yet, although so much depends upon their being composed of intelligent, experienced, active, clear-headed men, citizens, and intelligent citizens, too, exhibit a most astonishing carelessness, and even apathy, when the time comes to choose civic rulers. This is an evil under the sun, and one which it is very difficult to account for.

Mr. Chamberlain has a paper in the November Forum in which he contrasts the expense of the government of the city of Birmingham with that of Boston and other American cities. An American writer, Mr. Julian Ralph, has described Birmingham as the "Best Governed City in the World," and Mr. Chamberlain shows what the corporation of that city has done and is doing, and what the citizens pay for the comforts and conveniences they enjoy. He describes Birmingham in 1838 as being in a miserable condition, being an overgrown village with the population of a great town. Good city government has, since then, completely transformed it. He says:

Great public edifices, not unworthy of the midland metropolis, have risen on every side. Wide arteries of communication have been opened up. Rookeries and squalid courts have given way to wide streets and open places. The roads are well paved, well kept, well lighted, and well cleaned. The whole sewerage of the town has been remodelled, and the health of the people is cared for by efficient sanitary inspectors. Baths and wash-houses are provided at a nominal cost to the users. Free libraries and museums of art are open to all the inhabitants. Free schools

and a school of art together with facilities for technical instruction are provided for their education. Recreation is not forgotten, and not less than 10 parks and recreation grounds are now maintained by the Corporation. New Assizes Courts and Courts of Justice have been built. The police force and fire brigade are kept in the highest state of efficiency, while the great monopolies of water and gas have passed into the representatives of the whole community, who have also acquired the tramways, and have thus retained full control over the roads of the city.

Was not the work of effecting this wonderful change worthy the time, the talents and the attention of the best men in the community, and can the most gifted citizen of Birmingham be better or more worthily employed than in keeping the works and the institutions of the city in good order, and in doing what is necessary to increase and improve them. And what is good for Birmingham is good for this city, for Victoria needs civic improvements and reforms every bit as much as ever Birmingham did; and where are the men who are preparing to begin the good and necessary work?

Mr. Chamberlain tells us that the men who have made Birmingham what it is did their work without fee or reward. The Mayor and Aldermen and Councillors have not been paid for the time they have spent in the public service. And this is the case with all the corporations of England, with the single exception that the Mayor is in some boroughs voted a salary to maintain the dignity of his office. The civic franchise is, it appears, free in monarchical England than it is in republican America, there being more voters on the list in proportion to the population in Birmingham than there are in Boston. The cost of city government in the cities of the United States is, according to Mr. Chamberlain, nearly twice as great as it is in Birmingham. The average expense of city government in one hundred cities of the United States with a population of about twelve millions and a half is \$16.77 per head of the population, while corresponding services cost the citizens of Birmingham \$4.50 per head. When the cost of governing Boston alone is compared with the civic expenditure of Birmingham, the discrepancy appears in a still stronger light. The two cities are nearly equal in population, Boston being 448,000 inhabitants, and Birmingham 430,000. The total municipal expenditure of Birmingham is £333,000, or roughly \$1,665,000, while that of Boston is \$10,194,000; and, an American writer and traveller being the judge, Birmingham is the better governed city of the two.

One effect of improved city government in Birmingham we cannot refrain from noticing. The death rate in that city was in 1874 26.8 in 1,000; in 1888, although the influenza increased the mortality, it was only 19 in the 1,000. "In other words," to use Mr. Chamberlain's very expressive comment, "the initiation of the unpaid members of the Council and their supervision of the loyal and assiduous labors of the paid officials, have been the means of saving the lives of more than 3,000 persons in a single year; and inasmuch for a single death many cases of illness not actually fatal may be reckoned, it is easy to see what a mass of human suffering has been lightened and how much misery has been prevented." Who would not be proud of helping to produce such a beneficent result as this? Yet this is what aldermen and common councillors can do if their exertions are intelligently directed.

THE NEXT PRESIDENT?
To-day the election for President of the United States takes place. Sixty millions of people will, in the course of the next few hours, peaceably and constitutionally elect the man who shall be the head of the Executive of the Great Republic for the next four years, and the minority will quietly and even cheerfully acquiesce in the decision of the majority. The agitation and stress and struggle are before the election takes place. While it is going on the electors are too intent upon getting in their votes to think of anything else, and as soon as the choice is made the contest is over.

The present election is one of very great importance. The people have to choose not so much between two men as between two policies. If the Democrats win the trade policy of the country will be greatly modified, and what, in some other countries, would be called a revolution will be peaceably, and in complete accordance with the law, effected.

It is indeed a matter of surprise that the policy of high protection should have so many opponents in the United States. It seems but the other day when nearly every American was a protectionist and when it was considered almost high treason to say one word against protection of the strictest and the most exclusive kind. There appeared to be no free traders at all in the country, and those who advocated modifying the tariff in the direction of freedom of trade could hardly get a hearing anywhere. The McKinley Bill, however, seemed to create tariff reformers, for no sooner had it become law than they became a large and formidable party, and that not in one state

but in many states. The elections of 1890 appeared to be a protest of a large majority of the people of the United States against the policy of trade isolation which McKinley had inaugurated. It was said that 1890 was an "off year," and that when the people had time to think and after they had seen the McKinley tariff in operation they would change their minds and fall into line on the Republican side again. To-day's voting will show whether or not those who made this prediction understood the American people. It is admitted on all hands that the election will be very close. This is, as far as it goes, in favor of those who predicted that there would be a reaction in the direction of a high tariff in 1892, for the elections two years ago were everything but close. The Democrats carried all before them; but it is admitted now that they will have to fight for every inch of the very ground which they carried with a rush in 1890.

The reports during the last week have been more favorable to the Democrats than they have been since the campaign commenced. It is said that New York State is now safe for the Democrats, and that their prospects in other states, hitherto considered doubtful, have greatly improved. But, on the other hand, the tone of the Republican is confident. They say that they are sure of New York and of many other of the doubtful states on which the Democrats count. It is, therefore, very hard indeed for an outsider to form anything like an intelligent opinion of the prospects of either party, and for that matter, for an insider either.

The appearance of the People's Party in the field is another element of uncertainty. It is not known how many States, if any, the People's Party will carry. There are some who laugh at the idea of its carrying a single State, while others believe that it will carry two or three and so divide the votes of other States as to spoil the chances of the Republicans. The belief seems to be general that the People's Party being in the field is favorable to the Democrats. There was a hope at one time that they would so modify the vote in the different States that neither party would have a clear majority in the electoral college. That majority is 223. If neither Cleveland nor Harrison gets 223 votes in the electoral college it will be the duty of Congress to decide the election. In that case the Democrats will be sure to win, for their majority in Congress is quite considerable. The elements of uncertainty are so many that no one seems to have the slightest idea who will win. But they will not be kept long in suspense. The agony will soon be over, for to-morrow morning sufficient information will have been received to enable those who are well versed in American politics to form a pretty correct idea as to which of the candidates is elected.

THE CITY.

Meet This Evening.

The managers of the James Bay Athletic Association will meet this evening to transact business in connection with the association.

The Ladies Entertain.

Colfax Degree Lodge, Daughters of Rebekah, announce one of their pleasant lodge socials for this evening. After routine business, there will be music, recitations, dancing, and refreshments.

Another Dancing Club.

The younger members of the congregation Emanuel are organizing a dancing club, and arrangements will be perfected, it is hoped, in a few days. The club starts with a big list of enthusiastic members.

Furs for the English Market.

Yesterday eleven bales of furs, chiefly beaver, were shipped by the Hudson Bay Co. for the January sales in London, Eng. The consignment is valued at \$20,000. Markets are expected to be good this year.

Back from an Inspection Tour.

Mr. D. Wilson, Inspector of Public Schools, returned on Sunday night from a two weeks' tour on the mainland, during which time he visited most of the schools in the lower Fraser Valley, on both sides of the river.

City Police Court.

Police Magistrate Macrae had sufficiently recovered his health to preside in the police court yesterday, and mete out justice to the few who were brought before him. The most serious offence charged was larceny, one Angus McDonald getting three months for the theft of a shotgun.

St. Paul's Sale of Work.

Patrons and visitors to the sale of work of the Ladies' Aid of St. Paul's Presbyterian Church, Victoria West, in the Public Hall, Craigflower, this afternoon and evening, are assured a cordial welcome and good treatment. Supper from 5 to 8. Good music during the evening. Proceeds are in aid of Church Building Fund.

Provincial Court.

Messrs. C. Pearson and Thos. Shotbolt, J.P.s, sat at 2 p.m. yesterday, to hear the case of Henry Banks, late engineer of the steamer T. W. Carter, against H. R. Foote, one of the owners, for \$90 wages. An order was made for \$10 and costs, to be paid at once, the balance in 14 days. Mr. W. H. Langley for complainant; Mr. C. C. Pemberton for defendant.

A Thanksgiving Feast.

A Thanksgiving dinner, in aid of the James Bay Methodist church building fund, will be given in the church this evening, commencing at 6:30 o'clock. After all have thoroughly satisfied themselves at the tables, a programme, consisting of addresses, vocal and instrumental music, etc., will be rendered, and an endeavor will be made to have all who attend enjoy themselves.

Forsaking Parliamentary Honors.

The Victoria Mock Parliament and Debating Society was called together for last night, but Mr. Speaker did not take the chair, there not being a quorum present. In vain did the "whips" labor to work up a house, and with due solemnity the few members present decided upon a programme for next Monday—the advisability of going to the country again, and handing over the funds on hand to local benevolent objects. "Alas for the rarity of human charity!"

An Enjoyable Seance.

A very enjoyable seance was held at the pleasant parlors of Mrs. Mayo-Stears, at 53 Vancouver street, on Sunday evening last. The audience was quite equal to the amount of space, and was very attentive and appreciative. After invocation and singing, the medium, under control, delivered a short discourse on the conditions requisite for spiritual intercourse. Then about an hour was spent in giving tests to the audience.

Old Fellowship.

Fernwood Lodge C. O. O. F., M. U., held its regular meeting last Friday evening. One candidate was initiated into the mysteries of the order and four brethren advanced to the White, Blue, Scarlet, and Gold degrees. This lodge purposes holding a grand social and dance on the evening of the 15th inst., for the benefit of the piano fund. It is also proposed by this lodge, in conjunction with the other lodges, to hold a grand Christmas tree during the holidays. At the lodge next meeting plans will be unfolded for more active work during the winter season.

Cleveland Is Favorite Here.

Despite the interest taken in the Presidential election which is to be held to-day, betting on the result has been very meagre in Victoria. There seems to be a plethora of money here to be placed on Cleveland, but when Harrison backers are wanted they are few and far between. Many staunch Republicans predict certain success for their party, but they will not back their opinions with hard coin, and what little betting has been done has been at the rate of 100 to 75 on the Democratic nominee, Frank Campbell. It will have a little election of his own to-day—"Cleveland or Harrison"—and will act as a crown returning officer and declare the results in the evening.

Pulpit vs. Press.

The Royal Templars of Temperance met for the first time last night in their new lodge rooms, in the Caledonian hall, Blanchard street. There was a very large gathering of members, who were entertained by a capital debate on the question whether the press or the pulpit is the more powerful agency for good. Bros. J. Russell, D. McPhaden, and F. Wright championed the cause of the pulpit, while Bros. J. Whitfield, J. Ellis, and T. H. Matthews were the advocates for the press. The speaking on both sides was very good, but when a vote was taken it was in favor of the pulpit. The Templars will meet every Monday night in future, so that a busy and entertaining session may be looked for.

Memorial Service.

A special service was held in the Centennial Methodist Church on Sunday evening last in memory of the late Mrs. Kernode. The pastor, Rev. J. H. White, preached a very effective sermon from the text, Prov. xxxi, 28, "Her children arise up and call her blessed; her husband also, and he praiseth her." The rev. gentleman spoke in feeling terms of the deceased lady and the loss which not alone her beloved family, but the church, sustained in her demise. She had been a consistent Christian, and when her end came was reconciled to the will of the Lord, and died with her husband and family at her bedside. Hers was a

life worthy of emulation, and although her latter years were years of sickness, she was fortified in her sufferings by that peace which passeth understanding.

Assault Upon a Chinaman.

It is understood that proceedings will be taken by the city police to-day against one Chas. MacAulay for assaulting a Chinaman, by inflicting a severe wound in the back of his neck.

The Smallpox in Seattle.

There are at present over 40 cases of smallpox in Seattle, no less than four patients being picked up on the streets on Friday afternoon. Had the Seattleites less election on their hands they would no doubt become alarmed.

Advised Them to Settle It.

In the County Court case of Harrison v. Toller and Fletcher, heard before Mr. Justice Walkem, last month, His Lordship has decided to give a written judgment. In the meantime, however, he has recommended the parties to the suit to come to an amicable settlement, as the case is one which should never have been brought into court.

Wedding Cakes.

Henry Clay, confectioner, Fort street, exhibits in one of the windows two specially attractive wedding cakes. They are artistically "iced," and prove the excellence and taste of Mr. Clay's work. His cakes and pastry are noted for their fine quality. A handsome wedding cake is one of the requirements of the "happy event," and Henry Clay's is the place to get it.

St. Andrew's R. C. Cathedral.

The new cathedral was well filled at all the services on Sunday last, and the music was particularly good. It is intended to change the position of the organ loft when the new instrument is secured, as at present the choir are in the top gallery, and much of the good effect of the music is lost. Rev. Father Fay was the preacher at morning service and Rev. Father Leterme occupied the pulpit in the evening.

To Build Houses.

Mr. D. R. Young, the local real estate dealer, returned from the mainland last night. He has been away several days perfecting the details of a plan for improving a considerable amount of property in Victoria West. The programme, as now arranged, includes the erection at once of nine houses on the land, which will be divided into lots. The plans and specifications will be prepared at once, and the work completed as soon as possible.

The Gold-Rimmed Glasses.

Ah Yung, who, as the name will suggest, is a Chinaman, was found yesterday by Officer Redgrave endeavoring to dispose of a pair of gold-rimmed spectacles. The Mongolian's vision is by no means impaired, as he very quickly "spotted" the officer. He could not satisfactorily account for the possession of the "specs," and was locked up last night to give him time for reflection and the police an opportunity of finding an owner for the glasses.

In Bachelors' Quarters.

Mr. F. Landsberg and his associates gave a housewarming in their new quarters on Pandora street on Sunday night, in which some twenty-five couples—young members of the Jewish persuasion—participated. A most enjoyable time was spent with singing, dancing, and general festivity as important factors in the programme. The merry party broke up early yesterday morning somewhat envious of the bachelors in their comfortable quarters.

Guy Fawkes' Day.

The Fifth of November was duly commemorated at Saanich by a grand entertainment in the Agricultural Hall. The building was crowded, and those present enjoyed a capital programme of music, aerobatics and dancing and a good supper provided by the ladies. Lest the event which marks the day as one to be remembered should be overlooked, Mr. John White, ex-M.P., was on hand and told his auditors as much about Guy and his gunpowder plot as they would be likely to acquire by an extended study of English history.

Corrig v. Cathedral.

To-morrow, at Beacon Hill, Corrig College will play the Christ Church Cathedral Association Football Club in a return match, play to begin at 3:45 p. m. The opposing teams will be:

Church Parade.

The members of the Canadian Order of Old Fellows, Manchester Unity, assembled at Trades and Labor Hall, on Sunday morning, and, in full regalia, marched to the First Presbyterian Church, where Rev. Dr. Campbell addressed them from the pulpit. The reverend gentlemen spoke of the benefits of the order, and instanced its rapid growth and popularity as evidence of its sound principles. The turn-out was not as good as usual, owing to recent differences in the local lodges, which have made many of the brethren apathetic. However, a change for the better has taken place, and new members are enrolled at almost every meeting of the lodges. Those in attendance on Sunday were "Dauntless," "Fernwood," "Victoria West," and "Waverly" lodges, marshalled by Bro. Baker.

JUBILEE HOSPITAL BOARD.

A Prolonged Meeting of the Directors and Much Important Business Transacted.

The Ladies' Auxiliary Would Like to Have a Voice in the Internal Management.

The Directors of the Jubilee Hospital held their regular monthly meeting last night, sitting from 8 o'clock until 11:15, and in this time discussing and dealing with many matters of interest, some of them concerning the internal management of the institution.

President Joshua Davies was in the chair, the other members present being Messrs. W. M. Chudley, J. S. Yates, Alex. Wilson, G. H. Brown, A. C. Flumerfelt, H. D. Helmcken, Ben Gordon, E. Crow Baker, I. Braverman, Geo. Byrnes, C. Howard, Thos. Shotbolt and J. Braden. Routine business, the reading and adoption of minutes of previous meetings, etc., were soon disposed of, and then the actual work was taken up.

A communication from all the nurses in the hospital in regard to the hours of work was thoroughly discussed, and afterwards referred to the committee for the month for report. There are now in the hospital six regular nurses, three of whom, according to the by-laws, are to go on duty at 7 a.m. and continue until 7 p.m., the other three to come on at 7 p.m. and go off at 7 a.m. Every six weeks the night and day nurses change places, necessitating one long day of 24 hours for those who are changing. The nurses think that 12 hours continuous work is too much, and ask that the rule be changed so that they will have only eight hours.

The consensus of opinion at the directors' meeting seemed to be that it would be better to change the hours, but no new arrangement will be made until the next meeting, Miss McMillan, arrives from Toronto. In order to reduce the hours of nursing from 8 to 12 it would be necessary to employ three more nurses, but an alternative plan was suggested. The further discussion of the matter was, however, postponed as stated, and it will come up at a subsequent meeting.

Dr. Richardson's report for the month drew attention to the bad condition of the drain to the Cadboro Bay road. The cause of the difficulty is that when the Cadboro Bay road drain was put in, it was placed about a foot higher than the drain from the hospital, and water, especially thick water, does not generally run up hill. The committee for the month will wait upon His Worship Mayor Beaven and endeavor to have him go out and get a whiff of the odiferous atmosphere. They think if Mayor Beaven will go with them the drain will be repaired in short order.

Another matter Dr. Richardson referred to was that of a steam disinfecter. This very necessary article can be purchased in Germany for about \$150 to \$200, and it is claimed, would save its cost in a very short time in linen, blankets, mattresses, etc., which now have to be destroyed. The matter will be looked into and an effort made to secure some appliance for the purpose.

One of the directors brought up, in connection with a second report from Dr. Richardson, the matter of the way cases of infectious diseases within the city are being looked after by the local authorities. Several instances were given of gross carelessness, negligence, or lack of knowledge on the part of local medical men, and the opinion was freely expressed that an example should be made of some of them. The secretary was instructed to forward a copy of the report to the City Council, with a request that the Board of Directors be informed as to the action taken thereon.

There were a couple of matters referred to in the report of the visiting committee of the month that called for special notice. One of these was the addition to the morgue, plans for which have been prepared by Mr. John Teague. The estimated cost of this building is between \$350 and \$400, and within the next few days tenders will be advertised for. The other question was also in connection with new buildings said to be required. The proposition is that if in the near future it becomes necessary to increase the staff of nurses, greater accommodation will be required, and in order to get this it will be necessary to remove the doctor's quarters. The suggestion has been made that a residence for the physician be built, either on the Mount Tolmie road or within the grounds.

Little definite information being at hand in regard to probable cost, etc., it was decided to adopt the suggestion of the committee and call a special meeting at an early date to discuss the question and decide upon it. In the meantime, however, several of the directors expressed their entire disapproval of the scheme, while others were just as strongly pronounced in favor of it. The special meeting will probably be called for some day next week.

President Davies brought up a very interesting question when he asked the board, on behalf of the King's Daughters, to state in what way some money now on hand could be expended. They wished to have some specific object to work for, and it was finally decided to gratify their praiseworthy desire by setting apart one of the rooms of the female ward to be fitted up exclusively for them, and to be used for children when there were such cases in the hospital, but for general purposes whenever required. The name "King's Daughters" will be put upon the door of the room, and the little ones will have something to work for.

A suggestion was made to the board on behalf of the Ladies' Auxiliary, that, having done so much for the Jubilee hospital in the way of raising funds, they might be allowed to assist in some other ways. For instance, some of the members thought that the ladies would be very useful, indeed, to work along with the Visiting committee for the month, and give their special care to some matters of internal economy and administration which the male members of the Board would hardly be able to look after. The suggestion met with general favor, and a resolution was handed in, duly moved and seconded, to the effect that they should be allowed to have a voice in the management. At this point some of the benedictors on the board intimated that while they thought it would be better to afford invaluable aid, it would be better not to act hastily, and on this recommendation the motion was laid over for another meeting.

A number of minor matters were also decided. One of these was brought up by Mr. A. Wilson, who thought notice of all deaths occurring at the Hospital should be inserted in the newspapers, and it was therefore decided that this should be done. A letter from Miss Mount enclosing her last report for the month was received, and will be suitably acknowledged.

Various other reports were received and

adopted, these last including the interesting items always furnished by the Honorary Treasurer in regard to the cash. When it came to voting money for the payment of taxes on the Old Men's Home, Mr. Baker enquired who voted on that property.

No one seemed to know. Before the adjournment, the Hon. Treasurer, Mr. Chudley, drew attention to a paragraph which appeared in the Times, purporting to give a statement of the receipts and expenditures of the ball held recently by the Ladies' Auxiliary.

The statement had not, he said, been made up, and would not be for several days, and in the meantime it was unfair to publish a statement which must necessarily be incorrect.

The meeting adjourned at 11:15 p.m.

The Umatilla Arrives.
The San Francisco steamer Umatilla arrived shortly before one o'clock this morning. She had several passengers and a medium-sized freight for Victoria.

One Convicted, One Acquitted.
Mr. Justice Drake heard two criminal cases yesterday in which the defendants elected to be tried under the Speedy Trials Act by a judge without a jury. A young boy was convicted of breaking into a house on Pandora street, and was sentenced to nine months in the Reformatory. Oscar Bull, a Swede, charged with having stolen goods in his possession, was acquitted.

A Would-be Duval.
Evidently some one has been reading "Claude Duval, the Daring Highwayman," or some other equally thrilling yarn, and has resolved to emulate that renowned hero. Several days ago a young man named Steinberger, who lives out in Saanich, was returning home on horseback. He was held up beyond the Royal Oak tavern by a man with a club. Steinberger had only a few cents in his pocket and the highwayman tapped him on the head for riding out at night under false pretences, and told him to move on—which he did. A night or two later a similar attempt was made on the driver of a buggy. The footpad stumbled at the critical moment. The driver reached for a shotgun, and an interesting combination was purely missed, but the aim of the driver. Officer Irvine has the matter in hand.

Seal Hunters' Wages.
The method being adopted by many prominent owners of sealing schooners in San Francisco this year, in paying the hunters who have already signed for next season is as follows: \$1.25 each for 100 skins; \$1.50 each for 150; \$1.75 each for 200; \$2.00 each for 250; \$2.25 each for 300; \$2.50 each for 350; \$2.75 each for 400; \$3.00 each for 450; \$3.25 each for 500; \$3.50 each for 550. This system is not liable to be followed among the local owners of sealing vessels. Their method will, it is understood, be to adopt the lay system, in which the hunters and owners have equal chances, their pay in both instances depending on the ruling price at time of sale. For instance if the lay is 1-5 per cent, and the skin draws \$10 at the sale the hunter gets \$2. This system will no doubt be adopted by all Victoria owners.

A Deserving Cause.

The men of H. M. S. Warspite, whose services have always been so cheerfully given in aid of any local charity requiring assistance, will present an entertainment at Philharmonic Hall on Thursday evening of this week, Thanksgiving Day, the proceeds being for the Seamen's and Mariners' Orphans' Home, an Old Country institution which has done much good. An excellent programme will be furnished by the sailor boys, and the large audience they are sure to have will enjoy the satisfaction of knowing that their half dollars have been spent in a good and deserving cause.

Or swellings in the neck since I was 10 years old. I am now 52. I used Hood's Sarsaparilla recently and the swelling has entirely disappeared. It has been very troublesome. When I began I was feeling so discouraged with the gout and rheumatism I felt that I would as soon be dead as alive. Whenever I caught cold I could not walk without limping. Now I am free from it all and I can truly recommend Hood's Sarsaparilla. I received a letter from Mrs. Jennie Higlow, now of Fremont, Mich., asking if my testimonial in behalf of Hood's Sarsaparilla was true; I replied it was, and sent particulars. I have another letter from her thanking me very much for recommending

Mercier Returns in Triumph.

MONTREAL, Nov. 7.—A big demonstration was given in honor of ex-Premier Mercier on his arrival here from Quebec to-night. Among those present at the station were Hon. James McShane, Mayor of Montreal; Captain J. P. Casgrain, President of the Young Liberal Club, and Dr. Guerin. The train arrived at 8 o'clock. When Mr. Mercier alighted he was received with great cheering. He was escorted to the waiting room, where he made a brief speech, thanking his friends for the demonstration. A procession was then formed, Mr. Mercier being carried in a chair, followed by members of Le Club National, bearing the tri-color, the Laval medical students and a vast crowd. The procession headed by bands of music, marched through the principal streets, where he again addressed the crowd. He declared that he had been persecuted, but his persecutors, instead of killing him, had now placed him in his seat in the Legislature, where he could meet his foes face to face. The crowd wildly cheered him as he retired. It is stated by Mr. Mercier's friends that he will not allow the matter of his prosecution to drop, but will take action against Attorney-General Casgrain, et al, for illegal prosecution, or whatever may be the proper term in law, for the recovery of damages.

The names of Dr. Ogden, Philip Jamieson and Hartly Dewar are already mentioned in the Reform interest, those of Messrs. E. F. Sheppard, H. A. E. Kent, Dr. Nesbit, Barlow Cumberland, Chas. Ritchie, Q.C., D. Creighton and Joseph W. St. John being suggested in connection with the Conservative nomination.

Bank Inspector Dead.

TORONTO, Nov. 7.—Walter Darling, Inspector of the Dominion Bank, and youngest son of the late Rev. W. S. Darling, rector of Holy Trinity, died last night.

Aground in the St. Lawrence.

MONTREAL, Nov. 7.—As the steamer Huronia, of the Thompson Line, was leaving port on Saturday, got beyond control of the hands, and drifting out of the channel was grounded near here. After being relieved of 8,000 tons of freight she was loaded and proceeded down stream. It is believed but little damage was done.

Scheduling of Cattle.

TORONTO, Nov. 7.—The scheduling of Canadian cattle for alleged pleuro-pneumonia has caused great commotion in the live cattle trade here. It will have the effect of compelling farmers to feed their cattle at home instead of sending them to

Great Britain to be fed. This will undoubtedly be not an unimproved evil, but it will certainly increase the hardships of the farmer's present condition under the McKinley tariff. The cattle dealers lose one of the cargoes now in transit, but they will afterwards be able to take care of themselves as between the farmer and the English consumer.

H. R. Ives in Difficulties.

MONTREAL, Nov. 7.—H. R. Ives, a large iron manufacturer, has called a meeting of his creditors. He owes about \$100,000, but his actual assets are expected to show a surplus of \$100,000. An extension will probably be granted.

THE EVICTED TENANTS.

Justice Mathews' Rulings Before the Commission Those of "a Daniel Come to Judgment."

DUBLIN, Nov. 7.—The scene in the hearing before the Evicted Tenants Commission to-day, when Judge Mathews refused to allow Lord Clanricarde's lawyer, Mr. Carson, to delay the proceedings by cross-examining witnesses called by the Commission, was quite a sensational one, though brief. It seems evident that Carson and Kenney had rehearsed the part they were to play, and that their object is to create a public impression that the commission is an unfair one. Had the commission allowed cross-examinations, the sessions of the body would have been prolonged far into the summer. The object of Justice Mathews in ruling out cross-examinations at this time is to expedite the proceedings and enable the commission to make at least a preliminary report by the end of January, which would otherwise have been impossible. His decision has apparently frustrated a plan of the Conservatives, which Carson was the agent chosen to carry out. The Nationalists present were so delighted at Carson's defeat that they could hardly be restrained from openly jeering at him. Wm. O'Brien did remark in a tone loud enough to be heard all over the room "Now you know the difference between a court of justice and a court of coercion." The joy of the Nationalists will be better understood when it is explained that Carson has been known for years as one of the most skillful and successful agents of the landlords. He has also taken a leading part in the prosecutions in most of the trials of the Nationalists, and has been so accustomed to having his own way with the judges that to-day's experience was as novel as it was exasperating. Lord Salisbury is to deliver a speech in London, on Thursday, and it is expected that he will set the Conservative orators an example by denouncing the commission as an unfair tribunal. The Liberals, on the other hand, are loudly eulogizing Justice Mathews as "a Daniel come to judgment."

MARINE MOVEMENTS.

The "Iona" Case Disposed of—The Owners Pleaded Guilty and were Fined.

Settlement of the "Bankburn" Difficulty—The "Gedney" Gone Home—Stray Skiff.

The end of the now celebrated Iona case, or what is supposed to be the end, was reached yesterday when, in the Provincial court, before Messrs. Pearson and Shotbolt, justices of the Peace, the owners and captain of the steamer were severally and collectively charged with carrying passengers without a license so to do, and in defiance of the statute in such cases made and provided. Skipper John Morris, otherwise known as "Bonanza Jack," like Whitcombe Riley's hero, "didn't have nothing to say." Neither did the owners, and fines of \$100 and costs and \$30 and costs were duly entered with the remarks, "pleads guilty." The peculiar feature of the Iona case was that the passengers carried were Chinese who paid their good money for a midnight passage to the "land of the free," on which they started on the night of Thursday, October 13. Rough weather drove the steamer into Carmanah Point, and a broken wheel compelled her return. Then the inspector of steamboats took action against her.

THE BUSY TUGBOAT.

Tug Lorne, Capt. Urquhart, returned to port Sunday evening, having towed the bark Louisa, coal laden for San Francisco from Departure Bay, to sea. Before doing this job, the Lorne towed out the bark Cleary with a load of salmon from the Fraser river for Liverpool, and the ship Morning Light, lumber laden from Vancouver for Liverpool. The Lorne will now remain in port a few days to have a few trilling repairs made to her machinery and receive a fresh coat of paint.

GOOD-BYE TO THE GEDNEY.

The U.S. survey steamer Gedney arrived in port Sunday evening, and sailed for San Francisco yesterday morning. The 40 tons of coal which she had on board at the time of her mishap in Portier's Pass, and which she was obliged to throw overboard in order to float off the rocks, could not be recovered when the Gedney returned last week, as the tide had washed it all away.

THE BANKBURN SAILS.

The Bankburn has completed her lumber cargo for Iquique and Port Blakely, and rumor has it set sail for the South yesterday. It is understood that a settlement has been made with the crew, but particulars will not be obtainable for a day or so.

MARINE NOTES.

While in Departure Bay on Saturday last, one of the steamer Mascotte's divers recovered an anchor in 17 fathoms of water, which had broken loose from a stationary mooring in the harbor.

A flat bottom skiff, which is now in the possession of Mr. S. Roberts, of the Custom House, was found in the Straits on Friday last. From the appearance of the boat it is evident that it broke adrift from some steamer.

City Hall, Victoria, B. C., October 26, 1892.

GENTLEMEN:—We the undersigned having received a copy of a resolution passed by the Council on the 21st of October, re-extension of Bird Cage Walk, sixty feet in width from Michigan street, southerly through Block 61 to Toronto street, to connect with Carr street, and the widening of Carr street to a width of sixty feet from Toronto street to Dallas road, through Block 1, 12, 2, 7, and 5, Beckley Farm, have the honor to submit the report and plan attached in conformity with Sections 15 and 16 of By-Law 170, intituled "A By-law to provide for the assessment of real property benefited by local improvements."

CABLE CORRESPONDENCE.

The Board of Agriculture's Action in Prohibiting Entry of Canadian Cattle.

Emperor William on the Freedom of Religion—The German Army Bill.

Bismarck in the Fields of Romance—Women in French Factories.

LONDON, Nov. 6.—It is anticipated that Herbert Gardner, President of the Board of Agriculture, will receive a storm of protests from Scotch Liberals against his hasty action in prohibiting the free importation of Canadian cattle, and ordering that they be slaughtered at the port of landing. This will impose a heavy burden on the taxpayers, as the cost of slaughtering will have to be borne by them, as also the expense of compensating the owners. The opinion of Dr. Williams, the first authority on cattle diseases in the United Kingdom, coincides with that of the best American and French authorities that cornstalk disease is not contagious. Many of the animals slaughtered were suffering with lung disease, but these were merely due to the strain of the long voyage and exposure. The Board of Agriculture is blamed for omitting decisive proof by inoculating sound cattle with lymph from animals alleged to be suffering from pleuropneumonia. A deputation headed by the Duke of Westminster, which waited upon Gardner, urging him to forbid the free importation of Canadian stock cattle, are credited with having a motive for their course. It is said the societies represented by the deputation feared that the importation of Canadian stock would have an important effect upon trade in the home pedigree stock.

The impression which the Wittenberg fetes have made will last and deepen. The silver trumpet on the tower of the resuscitated Schloss Kirch, and the voices of the people as they joined in the grand Lutheran hymn are still echoing. The celebration had an earnestness and a beauty which those who saw it will not soon forget. It took people back to the times when there were martyrs, saints and heroes, when there were living faith and living words, when the echo of those days rang through the speech in which the Emperor proclaimed his faith. It was a great and noble speech, however much it may have clashed with modern thought, and it was welcomed by all parties and all sects with a respect that so far had not been vouchsafed to Imperial utterances. The keynote to the speech was tolerance. "Faith cannot be compelled," said the young monarch, and his words had a special meaning at a time when the orthodox Lutherans were clamoring for the prosecution of Professor Rarnach, and while Catholics of all kinds were looking forward to an Imperial charge against the Pope. Discretion may have had as much to do with composing the speech as Christian charity, but the motive which led the Emperor to make it matters less than the broad fact that he did not make the charge. It will not change the course of politics, however, or induce the Centrists as a power to endorse the army bill. Electoral questions are largely the rule in such things, and as most of the Centrists fear that they will lose their seats if they approve the crushing taxes which the Chancellor contemplates, they will reflect, not once or twice, but many times, before they act.

During the week several important meetings of party leaders will be held in Berlin preliminary to the opening of the Reichstag. The general drift of political developments points to the Government securing a majority for the army bill, through the coalition of Conservatives, Centrists and members of the Reichspartei. Prince Bismarck's denunciations of the bill have failed to influence the National Liberals. A meeting of the National Liberals at Wittenberg took the strongest line of attack against the bill in declaring that Germany was unable to bear the increased taxation proposed. It was shown that a vast majority of the incomes of Prussian families are under 900 marks yearly. With regard to the tobacco tax it was shown that there had been a decline of receipts in the last half year of 54,000 marks, compared with the preceding half year. Receipts of the coffee tax have declined 26,000 marks and the decline in receipts from these articles of common consumption is taken as proof that the people are already overburdened by taxation. The Polish group in the Reichstag, which has been a staunch supporter of the military project of the Government, has weakened on the same grounds. Deducting the Polish vote, the Ministerialists are still confident they can carry the measure by 184 to 164. About a score of votes are uncertain.

The Militar Wochenblatt, in an article on the army bill, frankly states that, in the event of war the Russian army was superior to the Austrian that Germany would be obliged to help Austria on the Eastern frontier while fighting France on the Western frontier. She would be but feebly assisted by Italy, who would be unable to invade France, and who would have great difficulty in defending her own coasts from the French fleet. Maj. Kleimend, a military writer, contends that war is inevitable. Increased taxation to strengthen the army will, he declares, save the Fatherland many millions of debt contracted by an unfortunate war. Both writers admit the immense advance in the military power of France and minimize the value of the alliance with Austria and Italy.

Some of Bismarck's latest statements are denounced as fiction. The Vossische Zeitung calls them important mistakes. His assertion that the late Emperor William wanted to annex parts of Saxony in 1866, and that Moltke had urged an invasion of France in 1875, are both questioned. Among the epistles Bismarck tells now is one about the Bonapartist agent, who, in 1871, came to him during the negotiations for peace and offered to go to Bordeaux with a dozen men and assassinate Gambetta and other members of the provisional government. The Emperor was to be recalled to France, the Germans holding the country until the empire was re-established. Bismarck believed the project possible, but refused to agree to it, thinking monarchical France more dangerous to peace than a republic. The newspapers concur in expressions of regret at the undignified character of his utterances.

With the approach of winter the distress among the poor becomes more clamorous. A mob collected in one of the poor quarters threatened to pillage the shops. They threw a police agent into the canal, whereupon a body of mounted police charged and cleared the streets. A boatman saved the agent. A large number of arrests will be made.

The Frankfurter-Zeitung published on

Friday a strong article concerning the recent parliamentary election in Kielheim, at which the Prussian later, Editor Siegl of the Vaterland, was narrowly defeated. The writer warns the Prussians against trying to force upon Bavaria their obnoxious military system or any new radical measure touching military affairs. If the Prussians persist, despite the warning, he says Maux Siegl will be sent to represent Bavaria.

The French Chamber of Deputies has passed a bill prohibiting the employment of women in factories for one month before and after confinement, and ordering that half the wages usually earned by them shall be paid by the state, half by the department.

To set at rest rumors regarding the Pope's health, a representative of the Associated Press obtained an audience with His Holiness, and found him enjoying excellent health.

On Tuesday the people on the Birkenhead ferry at Liverpool, England, escaped without injury from a collision of the boat with another vessel, but three of the passengers were killed and fifty wounded by the wreck of a Mersey railroad train on which they had embarked.

The testing of the United States armor-plate, made by the Harvey process, took place at Portsmouth, England, this week, with the result of verifying the reports of tests in this country.

While the police were searching the house of a suspected smuggler in the district of Tonsky, Poland, they discovered the decomposed bodies of 19 persons—men, women and children.

During the week eight St. Petersburg firms, mostly in the grain trade, failed. Another large house, finding the export of grain profitless in the face of American competition, has decided to abandon the business.

It is asserted that the French Government suppressed a part of the news it received from Dahomey. The sick list of the French force is heavy, owing to the prevalence of fever. Col. Doda will have to wait for reinforcements before he resumes operations against the Dahomans.

The Belgian Chamber of Deputies committee on revision of the constitution has rejected the proposal to grant universal suffrage. The committee has adopted a clause granting the franchise to householders.

The bodies of five men, nine women and several children have been recovered from the wreck of the Rumania, at Peniche, Portugal.

Senor Costallot Coultona has been elected President of the Mexican Senate, and Senor Mejia President of the Chamber of Representatives.

Eight seamen and two apprentices of the British ship Gretna are reported to have deserted that vessel before she was wrecked in the China sea.

Catherine Booth and Mrs. Claiborn, daughters of Gen. Booth, of the Salvation Army, are to be expelled from the canon of Geneva, Switzerland.

A high political authority speaking of the German army bill in its international bearing, said: "The army bill proves that we can no longer trust our allies. We are required to arm to the teeth, as if war was imminent."

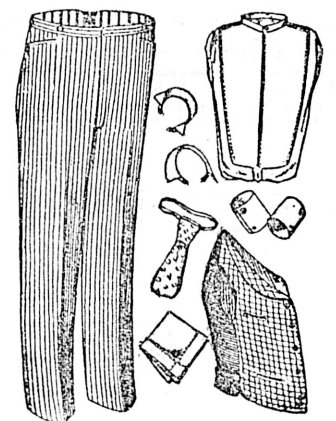

Spurgeon's tabernacle was crowded to-day with persons to hear the first sermon preached by Rev. Dr. Heron since his return. Dr. Pierson referred only indirectly to the division in the church. He said merely that he desired "lovingly to represent the whole church and not part of it," and asked for the prayers of the whole congregation that his labors might be effective.

FOR MEN ONLY.
This title doesn't "go" any more, as the ladies have adopted about everything shown above, unless it be the pants. But the lords of creation are forced to plod in the beaten track, and there is little change this season in men's apparel.

The "change" is fairly rapid with us, however, as we are making a splendid drive in neckwear and furnishings this week.

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.
THE NANAIMO COAL. (Used principally for Gas and Domestic purposes.)
THE SOUTH FIELD COAL. (Steam Fuel.)
THE NEW WELLINGTON COAL. (House and Steam Coal.) Are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high illuminating power, unequalled by any other Bituminous Gas Coals in the world, and a superior quality of Coke.
THE "SOUTH FIELD" COAL is now used by all the leading Steamship Lines on the Pacific.
THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel for the market.

A WORK OF GENIUS.

The Splendid Performance Given Last Even-
ing by Miss Jeffreys Lewis and
Her Company.

Jeffreys Lewis in "Forget-Me-Not," the
play in which she has won considerable
fame of late through the Middle and West-
ern States, and even critical California,
formed the attraction which drew a goodly
audience to the Victoria last evening, held
the attention of that audience till the cur-
tain descended on the last thrilling scene,
and sent everybody home satisfied that they
had enjoyed the work of genius.

Miss Lewis may not be the greatest
Stephanie the world has known, but in the
character she is undeniably great. The fa-
miliar Harry Mainhall, too, is a magnificent
Sir Horace, and the company fills in very
well.

The principals, like the play, "Forget-
Me-Not," are at all events not weak,
neither would they be taken as examples by
those who argue for the stage as an educa-
tional power for good. The story is of an
pattern of Camille, somewhat more health-
y in tone, in that it does not invest the
character with a halo of heroism.

Miss Lewis' Stephanie is hard, as it
should be. It is, however, magnetic in a
degree, the charm of the "dangerous
woman." In all her work she is consis-
tent, painstaking and able. Her climaxes
are a trifle disappointing, but it is perhaps
just the very thing that disappoints which
shows the genius Miss Lewis possesses.

As soon as Stephanie is by fear
compelled to drop the mask sup-
plied by a ready tongue and a
most expressive face, the real coarseness
of Stephanie known only to herself be-
comes apparent, grating upon the audience
like a discordant and utterly repugnant
sound, all the more glaring having for a foil
the beautiful though tigerish woman to
whom they had previously been introduced.

Harry Mainhall is a leading man and

their little well.

MR. PARKIN'S VISIT.

A Keen Student of Imperial Concerns, He
Will Give Victorians the Benefit of
His Information.

Mr. George R. Parkin, the talented
author of "Imperial Federation," has
been busy since his arrival in this city in
collecting information of which he will be
sure to make a good use. He has visited
Esquimalt, and goes this morning to Na-
naimo. He is determined to find out all
about British Columbia that is worth
knowing. He is indefatigable in collecting
information regarding the resources of the
British Empire, and has the faculty of put-
ting his knowledge into the most attractive
shape, as well as the facilities for spreading
it far and wide over the Queen's dominions.

Mr. Parkin has become an authority on
colonial subjects, and is evidently deter-
mined to deserve the confidence that is
placed in him both in the Mother Country
and the colonies. He is a native of Canada,
has resided for many years in Great Britain,
and has also visited all the other great
colonies. He is, too, a great reader, so
that it is very questionable if there is any
man living who knows more about
the whole empire of Great Britain than
he. Besides being a careful and
accurate observer, he is a deep thinker
and an accomplished scholar, as anyone who
has read his works must see.

His visit
to this province should be regarded
as an event of much more than ordinary
importance to its inhabitants, for what he
says of it will be sure to have great in-
fluence on intelligent men in the Old Coun-
try as well as in the Colonies—on both
Governments and private individuals. British
Columbia has, it is certain, very few as
important visitors as this unassuming, un-
pretending, friendly gentleman.

Mr. Parkin has been prevailed upon to
convenience to himself, to deliver an ad-
dress in this city before he leaves for Van-
couver. The time will be Wednesday (to-
morrow) evening, but the place and other
details have not yet been fixed upon. It is
to be hoped that no intelligent man in the
city—whether he believes in Imperial Fed-
eration or not—will lose the opportunity of
hearing Mr. Parkin. He is a speaker of
rare ability and his subject is one in which
every lover of Great Britain and of British
institutions must feel an interest.

THE TREATY OF VIENNA.

Germany Violating this Compact by Placing
Fortifications on the Swiss Frontier.

LONDON, Nov. 7.—The leading journals
of Switzerland and many of the French
journals are protesting against the reported
purpose of Germany to fortify the Volken-
burg mountain, thus securing a stronghold
at a point dominating the west valley of the
Rhine, within four or five kilometres of
Basle. The Swiss Federal Government pro-
fesses to be confident that the rumor is only a
boulder canard, but there is, nevertheless,
considerable anxiety over the matter. The
fortification of any place within 12 kilo-
metres of Swiss territory, by either France
or Germany, is contrary to the provisions of
the Treaty of Vienna, and should Germany
infringe upon these provisions it would show
that the time had come when the situation
they have long dreaded had arrived, when
Germany should disregard the sovereign in-
dependence of that little republic.

THE NEW ORLEANS STRIKE.

Serious Aspect of the Situation—The Turn-out
Becoming General.

NEW ORLEANS, Nov. 7.—The strike situ-
ation assumed a serious aspect to-day.
There are now the following unions strik-
ing: The rice-workers, painters, horse-
shoers, carpenters, coal-wheelers, grain-
shovelers, printers, clothing clerks, team-
sters, and lumber-yard men, marine and
stationary firemen, coachmen, steamship
scrapers, factory girls, paper-hangers, sales-
men, car-drivers, tailors, bakers and con-
fectioners, mill clerks and newspaper car-
riers and freight handlers. There was no
communication between the employers
and employees during the day. The men
are beginning to resort to violence in the
outlying districts and special officers will
be appointed. The State military holds
itself in readiness for instant alarms. It
was ordered that the water works, electric
and gas works men strike. The water
works men were ordered back in case of
fire. The others stayed out. The city will
be in darkness before morning, as the elec-
trical men are out of the public lighting
company. Governor Foster is resolved to
preserve order at any price, the outlook
being very serious.

The America Cup.

NEW YORK, Nov. 7.—Mr. Maitland Ker-
sey, who represents Lord Dunsen's inter-
ests in New York, received an additional
communication from his Lordship by cable
to-day, which he instantly communicated
to the New York Yacht Club committee of
five. It is said that the concessions made,
last week, were entirely satisfactory to Lord
Dunsen, and that his cablegram stated that
fact. It is expected now that Lord
Dunsen will forward a formal challenge
within the next few days.
